

Appendix 1. Summary of peer-reviewed primary research articles that used autonomous recording units for avian research.

Table A1.1. Primary research articles published in peer-reviewed journals included in Figure 1 that used autonomous recording units (ARUs) for avian research, sorted by year published. To locate articles we searched the Web of Science database in January 2017 using the following search terms: acoustic recording, autonomous recording unit, autonomous recorder, autonomous recording, automated digital recording system, bioacoustic monitoring, and passive acoustic monitoring. Only articles on avian species that used recording units that could function autonomously were retained.

Authors	Year	Journal
Acevedo et al.	2006	Wildlife Society Bulletin
Jones et al.	2007	The Wilson Journal of Ornithology
Acevedo et al.	2009	Ecological Informatics
Hutto & Stutzman	2009	Journal of Field Ornithology
Rognan et al.	2009	The Journal of Wildlife Management
Swiston & Mennill	2009	Journal of Field Ornithology
Odom & Mennill	2010	The Condor
Baldo & Mennill	2011	Journal of Field Ornithology
Farina et al.	2011	Ecological Informatics
Goyette et al.	2011	Journal of Field Ornithology
McGuire et al.	2011	South Australian Ornithologist
Osmun & Mennill	2011	Ethology
Buxton & Jones	2012	Journal of Field Ornithology
Campbell & Francis	2012	Journal of Field Ornithology
Depraetere et al.	2012	Ecological Indicators
Mennill et al.	2012	Methods in Ecology and Evolution
Rognan et al.	2012	Northwestern Naturalist
Tegeler et al.	2012	Wildlife Society Bulletin
Venier et al.	2012	Wildlife Society Bulletin
Buxton et al.	2013	The Auk
Cerqueira et al.	2013	Diversity and Distributions
